NORTH SIDE NEWS

Auto Collides With Buggy-No One Hurt.

Wheels of Machine Skidded in Deep Rut.

BUGGY OVERTURNED.

by Presence of Mind.

Other Items of Interest on the North Side.

When coming home from the Indian reek grange fair Thursday afternoon n his auto, E. E. Ollinger collided with a buggy occupied by Earl Brown and Miss Otie Matchet about a mile south of the grange building. No one was hurt seriously. The rear wheels of the buggy were broken and the auto was put out of commission.

The accident occurred about 'clock. Mr. Ollinger started to pass the buggy at the foot of a slight in-cline. At this place the dust and sand

The buggy was overturned, but the occupants were not thrown out. To prevent a runaway, A. M. Petro im-mediately jumped out and caught the

Mr. Brown and Miss Matchet bor-Mr. Brown and Miss Matchet borrowed a horse and buggy from a farmer who lived nearby and drove home. Mrs. Oilinger and her mother, Mrs. J. H. Skinner, and Mrs. Raiph Skinner, who were also in the auto, were taken home in another rig. The auto was taken care of at a farm house. A man from a garage is working on it today.

COULD NOT PAY LOSSES

So Merchants' Mutual Went Into Hands of Receiver.

The Merchants' Mutual Fire Insurance company, a local corporation with offices in the Mulvane building, was placed in the hands of a receiver at noon today when a suit was filled in the district court by one of the policy holders, Chas. H. Trapp. Chas. F. Spencer was appointed re-

The petition shows \$4,850 unpaid losses That the assessments on the stockholders have not been sufficient to cover losses is evident. A failure to get business enough to supply premiums in an amount to meet liabilities may be the direct cause rather than the fault of computations upon which the insurance and rates

are based.

At any rate the directors and stockholders have been cognizant of the affairs of the company and entered bankruptcy voluntarily with the probability that the company will be accumently dissolved. permanently dissolved.

SENATOR BRISTOW HERE.

Stopped Few Minutes on Way to Osage City Meeting.

Senator Bristow was here today— he passed through Topeka on his way to Osage City where he will deliver an address at the old home week cel-ebrations. The senator visited the state house, but only had time to drop in and take a look and give a hand in and take a look and give a hand shake to some of the officials. Governor Stubbs is at Osage City today for the same celebrations and the two notables will be the main at-traction in the "big tent."

NOON FIRE ALARM.

and were in a big blaze when discovered, the oil spreading the flames. The fire department succeeded in extinguishing the fire without any damage other

than the loss of the rags.

The North Brothers Stock company was renearsing a production for next week at the Majestic at the time, and the arrival of the fire department together with the odor of burning cloth put a sudden end to the rehearsal just as the climax of the last act was being worked up. ing worked up.

PINCHOT STANDS PAT.

Washington, Oct. 1 .- With a full de slightest modification of his policies regarding the conservation of the nation's natural resources and the na tional forests, Gifford Pinchot, chief forester of the government, returned here today after a two months' inspection of practically all the national forest reserves.

to that problem. President Taft, he said, had defined his position regarding conservation and there could now be no possible doubt that he is strongly com-

itted to that policy.
Mr. Pinchot stated most emphatically cline. At this place the dust and sand was deep and covered up a rut. The auto ran into the depression and the wheel skidded. Before Mr. Ollinger could gain control of the machine the collision took place. The front wheels of the auto were broken up considerably.

Mr. Pinchot stated most emphatically that he had come back here to pursue his conservation and forestry policies just as he had carried them on in the past. Mr. Pinchot declared that the national forests were never in better condition; that the district plan of organization was in admirable shape, and the personnel on a higher standard than ever before. Public sentiment, he declared, was very rapidly getting to be unanimous in favor of the forest ser-vice work, and he added that Secretary Wilson's trip through the west recently had done an immense amount of good. Nothing for Publication,

Mr. Pinchot declined to say anything for publication regarding the socalled controversy between himself and Sectetary Ballinger over conservation policies, but stated emphatically that

e would not resign. Pointing out that there was a water power trust in process of formation, Mr. Pinchot declared that it was one of the biggest questions which could be put for action at this session of congress, adding that "We have got to do something about the matter, or else ose out."

lose out."

He said that the tendency to consolidation which was now going on in all industrial enterprises necessarily in the industrial enterprises necessarily in the end would lead to the merging together of the water power interests exactly as it had in the steel and oil inverests. When asked if it were possible to head off this proposed trust, Mr. Pinchot expressed the view that "we can probably not prevent the combine, but we can control it."

City Railway Will Run the Cars West From Washburn.

Make a Loop on Campus at Athletic Field.

END OF A LONG FIGHT

Runaway Probably Prevented Will Not Alter His Policy and He Will Trustees of College and Company Officers Disagreed.

> termination to continue without the May Result in Extending the Road to Seabrook.

The long standing differences between the Topeka Street Railway company and the trustees of Washburn college have been patched up, and the long desired extension of the Topeka Street In speaking of the conservation question, Mr. Pinchot declared that the people of the country, especially of the west were now awake as never before to that problem. President Taft, he at the Washburn park, when the big month. football game of the season will take place with Kansas university, Satur-

day, October 30.

The Washburn college car line now College avenue, right at the entrance to the college campus. This is about a block from the new athletic park, and was nearly a block and a half from the old park, which was in saving and the cost \$89.80 during September to was nearly a block and a half from the old park, which was in service until feed the city prisoners. The city has this season. Under the old management, the Washburn car line extended since the lid went on. over half a block west of College avenue on Seventeenth street, nearly to Boswell avenue. At that time the street railway company's cars were of a more primitive makeun with cona more primitive makeup, with controllers and rheostats in both ands. All that was necessary to make a turn was to reverse the trolley and turn the seats.

When the new company took hold of the line, new cars were purchased, which were operated only from one end, and this made it necessary to build the Melan arch bridge. loops or wyes at the end of every line. The street railway company at that time was willing to extend its line west

Will Be Able to Handle Crowds. Contracts were signed between the Contracts were signed between the representatives of the street railway company and the college trustees late. Thursday afternoon. The company is now permitted to place a loop in the northwest corner of the college grounds which is just west of the athletic grounds and this will bring the cars right past the ball park entrance. Which is back from the street about one hundred feet. During the rush of big football and baseball events at the new park, the street raflway company will be able to run out extra strings of cars. park, the street raffway company will be able to run out entra strings of cars and leave them along the two block stretch of the line west of College avenue, and at the same time turn the regular Washburn cars at Seventeenth and College avenue, thus maintaining the regular service without interference.

"dry" territory.

The city attorney was redrafting, this morning, the proposed new motorcycle and bicycle ordinance so that all items of importance would be embodied therein in order that the old ordinances can be repealed.

It is reported that the preachers and lawyers will again class part

Later the Street Railway company will likely build an extension of the Washburn College car line to Seabrook, a rapidly growing suburb, about two miles southwest of the present terminus of the Washburn line. This is an improvement which has been taked of ever since the new company took charge of the street railway properties six years ago. It is believed that the work has been put off until the differences between the college and the company could be patched up.

The Street Railway company will build a platform where the passengers to the athietic park will be unioaded. From there to the entrance to the field, the college authorities and the Washburn College Athletic association will build a cinder walk. Under the existing conditions, it was frequently necessary to walk a block and a half in the mud, in order to see a football game, and the mud out that way is a gumbo of the stickiest variety.

Start Extension at Once,

block and a half in the mud, in order to see a football game, and the mud out that way is a gumbo of the sticklest variety.

Start Extension at Once,
In speaking of the extension of the Washburn line, Albert Patten, superintendent of the Topeka Rallway company, said last night before leaving the city, that the work on the extension would be started at once, "We are greatly rushed with various jobs of construction all over the city," said Mr. Patten, "but I think that we have plenty of material on hand now to complete the work. We will start a force of men to work immediately. We will put in heavy rails of the same weight as those now in general use over the city. We won't be able to complete the work right away, but we will be able to get the tles and rails down in time to handle the crowds for the big game with K. U. the last of this month and will be completed by the time of the Thanksgiving game."

President Sanders of Washburn college was largely instrumental in getting the differences settled, and for several weeks has been conferring with the street railway authorities and the college trustees. The contracts have been signed by both parties," said Dr. Sanders. "and I have every assurance from the Street Railway company, that the work will be started at once. The work will be well enough under way by the time of the annual football game with K. U., that the company will be able to handle the crowds."

LOCAL MENTION.

has been in the files of the ways and means committee of the city council for fifteen years and during that time no action has been taken upon it. It was signed by 91 persons, more than a third of whom are now dead, and asked to have a license imposed upon peddiers selling oils and fruits and vegetables on the streets of Topeka. The committee decided that on account of its extreme age and interest it was deserving of a place in the files of the city clerk.

RESCIF WEST IS DEAD

Prominent Topeka Society Woman Victim of Tuberculosis,

Miss Bessie West, the daughter of Mr. and Mrs. John G. West, of 1916 Harrison street, died last night of tuberculosis. Miss West, who was prominent in Topeka society, went to colorado in an effort to regain her health. She returned recently in a weakened condition, and her recovery was beyond hope.

Miss West was well known as a club woman, and leaves a large circle of friends. Funeral arrangements have not been announced.

ham and Dr. Thomas L. Brunk, who will take the affirmative against Messrs. E. C. Corning and Isaac Gilberg in a joint department on the question: "Resolved, That social and industrial freedom and a more just, economic, and simple government can be best attained by the Henry George system of individualism rather than by the Carl Marx system of socialism."

The debate is one which will bring out a general view of man as an individual, and also in his race relations, for the purpose of ascertaining whether

Desirable Selections in

\$25.00

More women plan to spend \$25.00 on a suit than any other one price. A quarter of a hundred dollars. It ought to buy a suit in which any woman would be well dressed anywhere. At this store it does that, and more-for a \$25.00 suit with our marker in the coat usually looks and is worth a higher price.

Then think of the variety there is to select from-so many more different styles, cloths, and colors than you would expect to find at \$25.00.

Those who come for \$25 suits tomorrow can choose from such good, and sty lish cloths as wide-wale diagonals, serges, worsted, homespun, broadcloth.

The color range includes cedar, coal dust, amethyst, navy, Prussian blue, olive, myrtle, two-toned effects, and black.

Group of \$25.00 Suits, that when you see them will impress you as worth \$35.00

Heavy Wide Wale Diagonal Cloth in Oxford grey. Handsome suit with 43-inch satin coat. Very late, low cut model. Long roll collar trimmed with heavy black moire silk. Closed with three very large moire buttons diagonally placed at the bust. Paneled coat back has narrow pleats in the skirt with two clusters of moire buttons in graduated sizes, giving a very stylish finish. Skirt in Moyen Age style, \$25.00.

Broadcloth suit in an excellent quality of cloth. The length of this coat, and graceful, semi-fitting lines produce the slender, modish appearance. Stylish, slanting pockets, and the termination of the openings on back seams are finished with arrow points of silk thread. Skirt is beautifully designed in Moyen Age style with narrow panel front. Shown in black, navy, and

Woven Striped Worsted of fine texture, in walnut shade. 45-inch coat lined with brown satin, becomingly trimmed on the extensions of seams at back of coat skirt, cuffs, and pockets with clusters of braid loops and buttons. Skirt has a narrow panel front, and deep foot kilts are shown at the lower part of the side gores. \$25.00.
